BLUETOOTH ENABLED DEADBOLT

Kwikset

INTRODUCTION

Kevo is a new type of Electronic Deadbolt that uses the latest Bluetooth® technology to enable the consumer to use a compatible Smartphone or included FOB as a Key. The functionality is similar to current automotive Passive Keyless Entry (PKE) systems which allow the user to unlock the door without needing to take a key out.

Kevo is easy to install, program, and use and operates on 4 AA batteries.

TOUCH TO LOCK/UNLOCK CONVENIENCE

Touch to lock/unlock convenience

With Kevo, all you need is your smartphone to unlock your door. You don't even need to take your phone out of your pocket or purse; just touch your lock, it will recognize your phone and unlock the door.

No more fumbling for your keys or memorizing a code... just touch the lock to open.

GRANTING ACCESS WITH EKEYS

Send an eKey

Send an electronic key (eKey) to family, friends, or visitors who have a compatible smartphone, so they can use their phone as a key.

Free Kevo Mobile App

The app is used for initial setup, sending, disabling and deleting ekeys, viewing history of lock activity, and setting up other configurable features and options.

KEY FOBS

No Smartphone? No Problem.

Keep your Fob in your pocket, purse or backpack and enjoy the same Touch to Open convenience. The Kevo Fob, that is included with the lock, is pre-enrolled so no additional setup is required. Additional Fobs will be available for purchase.

SUPPORTED DEVICES

Apple

Kevo app is compatible with iPhone 4s, 5, 5C, 5S, 6, 6 Plus as well as the fifth generation iPod touch, third generation or higher iPad and iPad mini.

We have plans to support all possible mobile devices.

- > iPhone 4S
- > iPhone 5, 5C & 5S
- > iPhone 6, 6 Plus

Android Compatible?

Currently Android 4.3, as well as Blackberry 10.1, does not fully support all Bluetooth LE features required by Kevo, but we hope it will soon. When it does, we will be ready shortly thereafter. You can still enjoy touch-to-open entry with a key fob and migrate to your Android device when available.
